- ❖ Students with a final project score below 20% will have a maximum final score of 4 points.
- ❖ Any forms of cheating will result in a partial or complete score of 0 for the course, depending on severity, including but not limited to:
 - Identical work (entirely or partially)
 - Doing work for others.

Classwork

□ Slides

- **LXX-<Lesson name>**: Slide of lesson.

□ Assignments

- **GAXX-<Exercise name>**: group assignment

- Turn in file name format: *StudentID1_StudentID2_StudentID3_DD.zip*

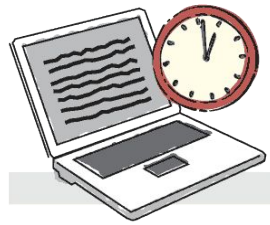

- **IAXX-<Exercise name>**: individual assignment

- Turn in file name format: *StudentID_DD.zip*

- **SXX-<Topic name>**: seminar

- Turn in file name format: *StudentID1_StudentID2_StudentID3_Topic name_DD.zip*

- **XX** is ordinal number.
- **DD** is self-evaluate input by student.

□ Must include these folders

- **Source:** source code of submission.
- **Database:** scripts of creating database structure and example data.
- **Document:**
 - Self-evaluate document
 - Functional description document (optional)
 - Instruction of database, environment setup (optional)
- **Demo (optional):** video describe implemented function.
- **Ref (optional):** reference used while doing assessment.

- ☐ Google classroom
- ☐ Email: nhkhanh@fit.hcmus.edu.vn
- ☐ Mail formation
 - ☐ Title: **[WAD-<Class>] – <Title>**
 - ☐ Student name and ID must be included
 - ☐ Example:
 - **[WAD-21_3] – Group members changes**
- ☐ Schedule a meeting at I82 by email.
